Appendix

Conclusion

Yingli's success has been driven by the strong fundamentals of the PRC and Chongqing's economy

Key drivers of success

PRC Economic drivers

- ★ Rapid GDP growth
- ★ Rising disposable incomes
- ★ Strong foreign investment influx

PRC Social drivers

- ★ Increasing urbanization
- ★ Positive government housing policy reforms and incentives
- ★ PRC's increasing pivotal role internationally

Chongqing related drivers

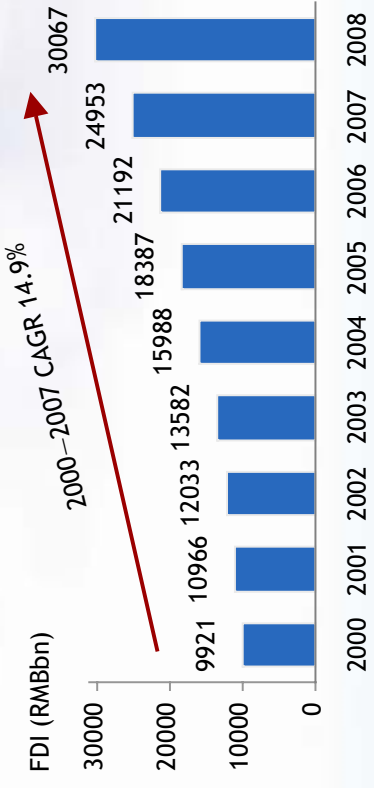

- ★ Booming key economic center of Western China
- ★ Favourable regulatory incentives
- ★ Established transportation network

Favourable macroeconomic climate provides strong potential for growth in the PRC and Chongqing real estate sector

PRC's rapid economic growth contributes to increased real estate demand

China GDP

PRC urbanization rate

China foreign direct investment ("FDI")

Real estate investment

China GDP is expected to experience rapid growth around 8.5%¹ in the next 3 years, which will further spur real estate sector's growth

Note:

¹Chongqing Times

Chongqing- Gateway to the West

A golden district in Chongqing

Yuzhong District is the cultural centre of the Municipality and also the parent city

YUZHONG District is the cultural centre of Chongqing Municipality. As the parent city of Chongqing, Yuzhong District has been rebuilt as the capital three times and fortified for four times in its history. It is not only the cradle of the Bayu culture, the culture of the War of Resistance and the Hongyan culture but it is also the "root" and "source" of the culture of Chongqing.

Bo Xilai – a member of the Political Bureau of the Central Committee of the Communist Party of China and praised as a great master in managing cities in China – pointed out in the People's Congress of Chongqing after he took the post of the secretary-general of Chongqing Municipality that Yuzhong District should become a "golden district" attracting more highly qualified talent and "production elements".

Mr Bo said: "Yuzhong District is a 'precious plot' in Chongqing. The Liberation Monument, Chaotianmen Square and People's Square are the highlights of Chongqing."

Liberation Monument CBD: biggest potential for investment in China

Ten years ago, China's first commercial street – Liberation Monument Walking Street was built.

The commercial area of Liberation Monument has been developing quickly and it is not only a business and trade centre but also the core of the CBD in Chongqing. It really merits the title of "No 1 Street in Western China".

Source: Business Times, March 18, 2008

In July of 2003, the government of Chongqing Municipality issued the Overall Programming of Chongqing's CBD, according to which the commercial area around Liberation Monument is defined as the core of the CBD.

Wang Fuying, the head of Yuzhong District, said: "Following the targets of building an internationalised CBD in Yuzhong District, we are planning to build the CBD of Liberation Monument as the most influential commercial area and an important business function area". Since 2006, the CBD of Liberation Monument has been given the title of "One of the Top Ten New Landmark Business Districts", "China's Famous Shopping Street", "China's Featured Cultural Square" and "No 1 Walking Street in Western China". Besides, it is asserted by China Headquarters Economy Research Centre as "the development and practice base for China headquarters economy research".

Previously, the CBD of Liberation Monument was elected as "the CBD with the Biggest Potential for Investment in China in 2007" in the Fourth China International Finance Forum. It was the only CBD in western China which was honoured with such a title.

Priority to develop the financial industry

The economic structure of Yuzhong District is unique. It is one of the few cities in western China which possesses features enjoyed by developed cities in the coastal area of China.

Yuzhong District only covers a small area of a little more than 18 square kilometres...

According to Vice Mayor of Chongqing, Huang Qifan, the PRC government plans to invest RMB2 trillion over the next five years to improve the economic environment and development base of Chongqing

Chongqing demonstrates great potential for real estate growth

Expected price increase in real estate prices

- Property prices below RMB 4,000 /sqm

Increase demand in real estate

- 2008 urbanization rate close to 50% is much higher than the national average of approx 45%
- Foreign and domestic retailers influx
- Expected GDP growth rate of 12.2% in the next 3 years

Limited supply in key CBD areas,
