B is the aggregate number of issued Shares immediately after such alteration.

Such adjustment shall become effective on the date the alteration takes effect.

B is the aggregate number of issued Shares immediately after such issue.

Such adjustment shall become effective on the date of issue of such Shares or if the number of such

B is the fair market value on the date of such announcement of the portion of the rights attributable to one Share.

Such adjustment shall become effective on the date of issue, sale or delivery of the securities.

Conversion price adjustment upon other events : If the Company determines that an adjustment should be made to the Conversion Price as a result of one or more events or circumstances not referred to in any of the conditions as specified in the terms and conditions of the Convertible Securities, the Company shall, at its own expense, consult an independent investment bank to determine as soon as practicable what adjustment (if any) to the Conversion Price is fair and reasonable to take account thereof, if the adjustment would result in a reduction in the Conversion Price, and the date on which such adjustment should take effect and upon such determination by the independent investment bank such adjustment (if any) shall be made and shall take effect in accordance with such determination, provided that where

the events or circumstances giving rise to any adjustment pursuant to the Conversion Price adjustment conditions as specified in the terms of the Convertible Securities have already resulted or will result in an adjustment to the Conversion Price or where the circumstances giving rise to any adjustment arise by virtue of events or circumstances which have already given rise or will give rise to an adjustment to the Conversion Price, such modification (if any) shall be made to the operation of the provisions of the Conversion Price adjustment conditions as specified in the terms of the Convertible Securities as may be advised by the independent investment bank to be in its opinion appropriate to give the intended result.

This is a common term included in the terms and conditions of the Convertible Securities without referring to any specific circumstances. It is expected the circumstances in which the Company would seek to avail itself to this flexibility to be extremely limited. As summarised above, there is a requirement to consult an independent investment bank in making this adjustment, and the determination would be made by this independent investment bank not by the Company.

The Conversion Price may not be reduced below the level permitted by applicable laws and regulations from time to time (if any).

- Exception :
- No adjustment will be made to the Conversion Price when Shares are issued, offered or granted to employees of the Company pursuant to existing options which have been granted under the existing share option scheme and the existing performance share plan of the Company prior to the date of completion of the Convertible Securities Subscription Agreement.
