STATEMENT OF COMPREHENSIVE INCOME

Due to the nature of the industry that the Company operates in, recognition of revenue from the sale of properties is driven by project hand-over. Consequently, quarterly results may not be a good indication of profitability trend.

For the nine months and quarter ended 30 September 2015

Revenue

Revenue of the Group for 3QFY2015 decreased by RMB148.8 million (57.1%) to RMB111.9 million as compared with 3QFY2014. The decrease was mainly due to lower revenue being recognized from the Sale of Properties segment, during the quarter, as the contracted pre-sales from the Ying Li International Plaza project were handed over in FY2014. Our profile of property sales accounted for is in line with industry, being an initial surge from the contracted pre-sales cumulated prior to the handover, followed by a more constant stream when the number of units sold get recognized immediately during the quarter, and then a tapering off when the number of unit available for sale declines.

Rental income increased by RMB5.9 million (11.6%) in 3QFY2015 to RMB56.6 million as compared to the same period last year. The increase is mainly due to increased rental contribution from the malls as a result of the adjustment made to the tenant mix and an increase in the office space leased out from the IFC office units.

Consultancy income - In 2QFY15, the Group entered into a service agreement with Shanghai Sheng Ke Investment Centre LLP, a LLP fund invested in the Beijing Tongzhou Project. Under the agreement, the Group will provide its expertise in project design, cost and quality control, and tax planning services.

Selling expenses

Administrative expenses

During the quarter under review, Administrative expenses - Normal recurring were RMB5.3 million less than or 16.1% lower than that of 3QFY2014. This was off-set by an increase in amortization expense of RMB1.72 million for office renovation expense.

Administrative expenses – Share based payment expense decreased by RMB7.4 million year-on-year due to the revocation of Performance Shares and Share Option to be vested in FY2015.

Finance costs

For the quarter under review, finance costs were RMB2.3 million higher as compared to 3QFY2014. The increase was mainly due to the higher quantum of loans drawn down compared to the same period in prior year.

10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

On 20 October 2015, the latest figures released by the Chongqing Statistics Bureau and the National Bureau of Statistics saw Chongqing's economy achieved a nominal GDP of RMB 1,125.27 billion for the three quarters of the year, an increase of 11.0% year-on-year. According to the National Statistics Bureau announcement on 28 October 2015, Chongqing's GDP growth of 11.0% was higher than China's GDP growth of 6.9% as well as the highest among the 27 provinces. Disposable income per capita increased 9.7% year-on-year to RMB15,385. Total retail sales of consumer goods grew 12.3% year-on-year to RMB466.2 billion.

Chongqing Office Market

During the quarter, there were 180,700 sqm of new supply entered the office market, a decrease of 44.5% quarter-on-quarter ("Q-on-Q"), with more than 70% were Grade B offices. During the quarter, net absorption areas was 101,300 sqm, a decrease of 30.8% Q-on-Q. Vacancies stood at 39.6% for the quarter, a decrease of 0.5% Q-on-Q. On the demand side, the finance and business service sector remains to be the main source, mainly concentrated in the Jiangbeizui CBD and Jiefangbei CBD area. There was an improved accessibility of Jiangbeizui CDB since the opening of Metro Line 6 and the opening of Qianximen River Bridge.

Chongqing has the highest bank presence in the Central and Western China, with most of them located in Jiefangbei CDB area. While the demand for quality offices in prime locations continued to remain attractive due to comprehensive amenities environment, MNCs remain cautious as the current China economy continues to weigh down.

Chongqing Retail Market

In 3Q2015, approximately 94,000 sqm were added to Chongqing retail market. In addition, more retailers, like Jimmy Choo, Hollister entered the market as well as fast-fashion brands such as Uniqlo and C&A expanding their footprints. The retail market has also witnessed a shift in shopper experience where experience-oriented retail and community based malls remained a major theme.

Chongqing Residential Market

In 3Q2015, the residential market entered the traditionally quiet season where transaction volumes as well as average prices decreased as compared to the previous quarter. During the quarter, only nine new residential projects were released in the market while most of the developers focused on offloading their remaining stock.

The Group focuses on development of premium integrated properties and 'built-to-order' model in Chongqing, mainly in prime locations like Jiefangbei and Yuzhong District. The Group believes the current positioning of its properties will continue to benefit from the strong fundamentals of Chongqing and rapid urbanisation of Western China.

Barring any unforeseen circumstances, including any adverse movements in the forex market, the Directors expect the group to remain profitable in FY2015.
